

# Can you *really* handle your research data?

You need to deposit data to publish – we can help you free of charge!

- ✓ **You must deposit data, so prepare for it**  
Easiest way to make data FAIR\*  
The journal will demand it!
- ✓ **Secure and optimise your research data**  
Design a *useful* data management plan  
Funders and universities require it!
- ✓ **Establish practices for handling human data**  
Ensuring privacy of research subjects  
Ethical and legal obligations!

- ✗ **Don't wait until disaster strikes!**  
You've lost data because you didn't have a solid backup strategy
- ✗ **Prevent unnecessary stress!**  
You have a short deadline to publish the data that supports your manuscript

➤ **Data management expertise free of charge**
